

YAGO CATALANO ANDÚJAR

Full Stack Developer

Java • NestJS • Angular • SQL • REST APIs
ycatalanoa01@gmail.com | linkedin.com/in/yagocatalanoandujar | github.com/CatanduYago | catanduyago.duckdns.org

PROFESSIONAL SUMMARY

Backend Developer with professional experience building REST APIs, SQL databases and enterprise web applications in FinTech and Healthcare environments. Passionate about backend systems, clean architecture and learning distributed systems.

WORK EXPERIENCE

Software Engineer May 2026 — Present **Silice España**

Digital payment infrastructure • FinTech • Multi-country platform

- **Architected and maintained** high-throughput backend modules for a Digital Switch Payment (DSP) platform processing cross border transactions across multiple countries.
- **Engineered** production-ready REST APIs and business logic using Java and NestJS, reducing service response latency by 18%.
- **Optimized** relational SQL database queries and schema designs supporting payment processing workflows, ensuring high availability and zero critical data downtime.
- **Accelerated** feature deployment cycles within an Agile framework by establishing standardized Git branch workflows and continuous code review practices.

Full Stack Web Developer Jan 2025 — Jun 2025 **Vitaly Tech (Grupo Preving)**

Enterprise CRM • Healthcare Tech

- **Independently designed and delivered** an end-to-end CRM web application using Spring Boot and Angular, serving internal enterprise operations.
- **Refactored** legacy Oracle Database SQL schemas and JPQL queries, achieving a 25% improvement in database retrieval performance.
- **Modernized** responsive JSP frontend interfaces for core legacy applications, enhancing usability for over 500 active business users.
- **Standardized** API integration protocols by fully documenting backend endpoints using Swagger / OpenAPI.

Freelance Full Stack Developer & UI/UX Designer Jun 2025 — Jan 2026 **Valkiria's Vikings**

Freelance project • Gaming / Esports

- **Developed and deployed** a custom, responsive Angular web platform hosted on AWS infrastructure, reaching 100% uptime.
- **Created** complete visual branding, reusable component design systems, and Figma UI/UX prototypes from scratch.
- **Delivered** a secondary portal for AEXVES ahead of schedule while preserving brand identity and frontend consistency.

TECHNICAL SKILLS

Backend: Java, NestJS, Spring Boot, REST APIs, JWT Authentication, Swagger / OpenAPI

Frontend: Angular 18+, TypeScript, JavaScript, HTML5, CSS3, Responsive Design

Databases: PostgreSQL, Oracle Database, MySQL, SQL, JPQL

Cloud & DevOps: AWS S3, Amazon Transcribe, Docker, Git / GitHub, CI/CD basics

Tools: IntelliJ IDEA, VS Code, Figma, Postman, Docker Compose

FEATURED PROJECTS

Subtitled: Live – TFC (Accessibility)

- **Integrated** Amazon Transcribe streaming services with Web Audio API to process live browser audio and display real-time subtitles with minimal latency.
- **Built** the full frontend architecture in Angular and TypeScript to boost platform accessibility for streaming environments. **Personal Portfolio** (Production)
- **Launched** a fully responsive portfolio built with Angular and automated CI/CD deployments via GitHub Pages. **Valkiria's Vikings Platform** (Freelance)
- **Designed and developed** a complete website and visual identity for an esports community using Angular, custom AWS hosting, and Figma prototypes.

CORE COMPETENCIES

Backend Development • Full Stack Development • REST API Design • Payment Systems • SQL Databases • Microservices Basics
• Responsive Web Design • Agile Development • Git Workflow • Clean Code • Problem Solving

EDUCATION

Higher Vocational Diploma in Web Application Development (DAW) — IES Castelar (2023–2025) | **EQF Level 5**
Technological Baccalaureate — IES Bio Climático (2020–2023)

AWARDS

1st Place — ExtremaduraSkills 2025 (Web Development Competition)
Finalist — SpainSkills 2026 (National Web Development Competition)

LANGUAGES

Spanish: Native
English: Professional Working Proficiency (C2 in progress)
